Friend Romaine

Nantucket Aug 16. 1839

Yours of 28th last mo. enclosing the deeds Linnace Co. lands was rec^d a day or two since (Sunday) by mail. Am much obliged for the trouble you have been at on account of my deeds.

In regard to the note and the proposition you make am at a loss what to say or what to propose. Your proposition is very fair provided we can ever realize any thing like the amt of the note. Sanford being absent for perhaps a 12 mo leaves me rather awkwardly situated in regard to it - what I should be willing to do might suit him & might not altho' I have full power to act and do as I see fit in settling the accounts of E & S. but you understand about these things as well as I do. I am willing to accommodate matters and have no doubt Sanford is perfectly, especially as you have been so unfortunate in your endeavours to get ahead, for which I am as sorry as I should be for any of my old friends and I don't wish you for my part to give yourself any unnecessary uneasiness about the note, only do as you would wish me to do to you in a similar case reversed.

If you are willing to deed as the 40 acres in fee simple and then act as our agent and sell the land on account of E & S and do the best you can with it and remit through some friend here, then I should be willing to give up the note if it did not fall much short of the amt. Don't you think this would be the best way? The land I don't want for I have enough already and perhaps shall never see my money back again, am in hopes however of realizing a profit tho' the folks here don't think much of it, particularly. I don't know what I could do with the land if I had it, and you ~~could~~ ^{can} do better with it than anybody. Perhaps if you do as above mentioned, for which you might have for your trouble a reasonable compensation - all we want is the amt of the note or as near it as we can get. We have depended upon having it as we have figured upon it & if you cannot meet it when due perhaps you can pay a part - At all events we shall be willing to do what is right. Your folks are all well &c

Mr Samuel Davis Sir

No doubt you think strange that I have let my a/c run on so long and said nor done nothing about it; but I assure you Sir I have thought enough about it every day since it should have been paid and tho' it is a small amt it has been out of my power and is now to settle it, but am in hopes it will not remain unsettled a great while longer, if you will be so accommodating as to bear with me. I have good demands out enough to meet my liabilities if I could collect them but our folks here do business in such a way and are so long winded and so independent withal, that I can do nothing with them till money matters become easier - our Banks do not discount & money cannot be hired at any reasonable nor even at any unreasonable rate, or I would gladly make an arrangement in that way for what little I want. I have about \$12000 worth of property at sea in the whaling business, doing well but it is out of my reach & expect no returns short of 12 mo but am in hopes to collect either debts or by sales so as to pay up all my demands in Boston soon as possible. I want you to be perfectly satisfied. I have property enough in my store to answer all my liabilities. I have said thus much, perhaps more than the subject warrants, that you might not think strange that I should let my a/c stand so long. I meant it should have been paid sometime ago.

Yours respectfully

Gent Yours of 1st inst was duly recd. In regard to the shell I thought it was all alike and that you examined it all - There was only $5\frac{3}{4}$ lb of it & 5¢: if the powder is taken out the other must certainly have been worth more than 5¢. However we will have it right.

There seems to be an error in our a/c which we had settled. I noticed it on arriving home, one or the other of us must be out of the way a little. You will see the a/c from my ledger over leaf.

Now according to my a/c there is a balance due you of 72.30 for which I have no objection to your drawing on me as you proposed viz 6 mo from Sep 30 or 3 mo from Dec 30. This part 1841

And the errors and shell we will fix up as it should be on my next visit to your city

Friend Folger Yours of the 16th inst by mail is just recd. I wish you to ascertain as near as you can without much trouble the amount of the taxes on my land, and draw on me at sight for the amount. I think this will be the best way as a draft on me at sight will be as good funds as any which I could send or better but if you cannot make this answer, let me know immediately and what kind of funds will answer

I will sell you all my land in Calhoun Sennevec & Sandusky at a price that will be cheap enough to enable you to make a good turn, and take your notes or note as you proposed with interest annually, and regard to security you can do that also as you suggested viz take a lien on the property which you exchange the land for

In regard to price, I don't know what to say - how much will you give?

Friend Folger

Dear Sir

Your very acceptable letter of the 16 inst was recd. yesterday by mail - it seemed like quite an encouraging letter to me, as regards my land, &c. The misfortune you have experienced in the destruction of your establishment is no doubt very discouraging to you. I can truly say I am very sorry you met with the accident - there are troubles enough in all business and employment, and no doubt you have your share without having to undergo that of a fire.

I thank you for the attention you have given in releasing my land from the taxes; you can send the receipts in any manner you think best; am in no particular hurry for them; if you don't find an opportunity to send by private hand before next winter, you can send them by mail.

I accept of your proposition, and you may take the 120 acres at \$3. If there be any particular form of sale necessary please let me know immediately.

If you prefer it, I can revoke the power of attorney of on the said 120 acres if you will designate them, & give you a deed. However this will be unnecessary upon second thought as you sell them on my account, under the power of attorney, which will be all straight.

You take the 120 acres at \$3 and as much more of them as you mind to, and you may make the notes as you proposed viz \$100 in two years from ^{the} date of purchase and the remainder payable in such sums & at such times as you judge reasonable, interest annually.

Inclosed is a certified check on Pacific Bank for \$18. 93 that being the balance according to your a/c

I wish you would dispose of the land, whenever you have a good chance & in any manner & for any article or property that will in your judgment render the sale advantageous, - do just the same with them as if they were your own & I shall be satisfied.

I spoke to Mr. Athearn in regard to his taxes - he is much obliged to you for the favour.

Shall expect to hear from you soon again.

The folks are all well - we lately heard from Hannah they were all well.

Yours Respectfully,

James Carter

in regard to Maecy's letter of Aug 7. '43

Nantucket Sep 9. 1843

Geo. F. Maecy Esqr

Detroit

Dear Sir Your favour of Aug. 7th ult
by mail is before me. The "critical situation" of my
lands, which you speak of has caused me some
surprise. There is something in the purport of your
remarks, it seems to me tending to leading me into
a suspicion that all is not straight in regard
to my lands. I made Mr Folger my attorney
with full power to act and transact in the
premises with full confidence in his integrity;
and cannot without positive evidence think
he will deviate from right. I have as yet
heard nothing against him and every thing
heretofore has been in his favour. I am aware
that he has met with losses by fire &c which
he acquainted me with, and have no doubt
he may be somewhat straightened in pecuniary matters
(know nothing about that) but still a man may
be unfortunate and yet be honest. My lands are
all in his hands - 120 acres in Calhoun Co. I
sold him in 1842 on time. I have written to
him to-day in regard to my lands & mentioned
receiving a letter from you about the critical
situation of them. I have made, sometime last
year an arrangement with Mr Folger wherein
he buys the said 120 acres and pays or agrees
to pay the taxes as fast as they become due on
the balance of the land. I furnished him with
the funds necessary to settle the taxes & (all he asked
for) and he was to see to the rest as fast as
they became due & be responsible.
I have as yet recd no returns from the
investment - have not recd any title from
Mr Folger this year since Jan'y if I recollect
right - expect an answer from him to-day
in due time, in the mean time I refer you
to him in all matters relating to the lands,

And if you know anything wherein my property stands in jeopardy and will have the goodness to inform me fully I will return the favour in the right way. Mr Folger must certainly know when the taxes are due and all about them and he will no doubt see that they are paid; I cannot believe otherwise, at present am much obliged to you for the interest you have taken in the matter and if you see fit, hope you will write again. Dr Sir

The slides suited exactly.

Will you have the goodness to drop me a line at your convenience and tell me what it will cost to make a gold Breast pin. The pattern marked out below, the center a painting to be furnished you with the glass over it (now in a locket) about the size of the inner ring or circle; the space between the two circles chana, and set round with white or diamond coloured stones or glass about the size of the circle in the pattern; the center to have a back but the outside stones to be open. There may be 12 stones on the outside as in the pattern or 10 or 9 as may seem to you best; I think they ought not to be any smaller than the pattern. By naming the price by mail ^{or otherwise} you will much oblige one of my Lady customers as well as

Gents

I herewith send you one of those horizontal watches to have a new jewel set in the top pivot of the balance. I ~~never~~ discovered it was cracked till I had sold it, tho' I perceived something was the matter with the watch when I first began to regulate it and laid it by, being over run with work and as there is no jewel on the island am under the necessity of sending it, tho' the man is in a great hurry for the watch. The center and cannon pinions both seem long you can see the prints of them in the case inside, but I think that does no hurt, the pinions can be easily shortened.

One of the gold levers you sent me is sold, the other "4 In Extra jewel, Boston 14005" I will keep a while as you suggested. Having no other gold lever watch, I think the chance is fair to get rid of it at a profit.

Please send me two more of those horizontal watches, the kind herewith sent to be fixed: also 1 Gold Lepine, brass cap, low priced but a good tasty outside appearance; not particular about it, being a lepine, a horizontal movement or any other if it would come less and keep good time would do as well, if it had all the requisites of outside show. And please send

1 doz flat steel Key Rings 1 doz. plain polished steel pinne mounts such as I used to have of you at 10/6
4 doz those low priced, smooth, plain gilt watch keys, please send these things by Express

I send herewith \$100 for the gold lever 6008 \$63 and the articles herein ordered, and the balance if any you can bill me on my a/c

Yours Respectfully

N.B. I wish to have the privilege of returning the gold watch herein ordered if I don't like it.

4 " 2 1/2 oz plain tea spoons

N.B. I sent you by Express July 20 a dft on New York for \$100 and ordered 2 sets 8 oz table spoons, and have not heard from you since. The spoons are very much wanted as I am entirely out of plain table spoons

and

and I have a chance to sell the above spoons
immediately; they seem to be in demand just now
and it will very much oblige me if you will
send them as soon as you can by Express
I would make my orders larger if I could
afford to, the profit is small and a large stock
remaining on hand would eat itself up in int.
Yours truly J. E. A.

P.S. to Lows Ball & Co July 28. 1844

Would you like to send me by Express a few
gold hows, minute & second hands and some gilt
hands and a few doz Lunette watch glass say 1/2 gro.
and let me select such as I want (there might be
some I should not want at all) and return such
as I don't want immediately by Express?

Mr. Robinson commenced occupancy at the watch bench this day (brought some of his tools in last eveg) at fifty dollars a year rent - he to have the use of the window for that sum for one year payable monthly (\$5 a month). All the watch and chronometer work & such like to belong to him. My watches he is to do at the usual prices which I have heretofore paid to such occupants, reference to their charges on my account, can be had for the purpose of deciding if necessary. He is to do no trading.
